

Figg's Landing

Product Specifications

Model number: COMM-1FIGGL

Child Capacity: 46 to 53 children

Age Range: 5 to 12 years

Safety Zone: 38' 4" x 39' 2"

Fall Height: 72"

Post Diameter: 3.5"

ADA Compliant 

Elevated: 11 components

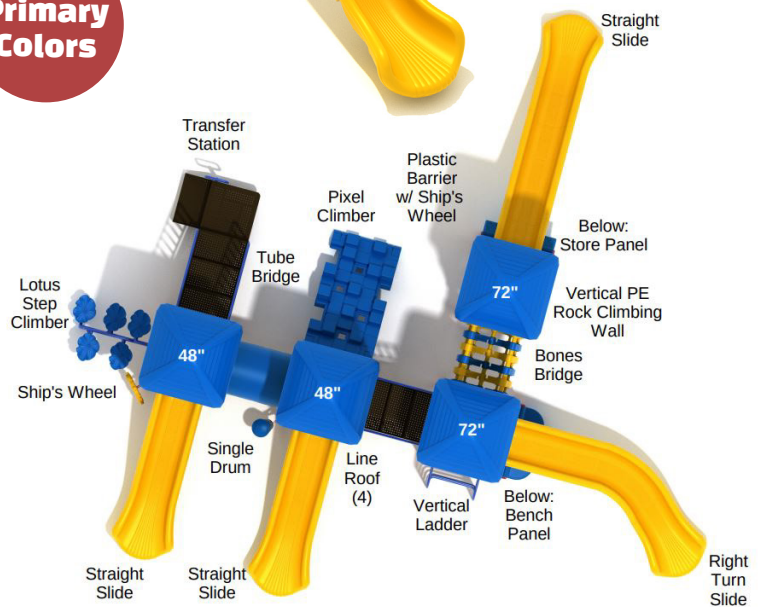

Ground Level: 4 components

Primary Colors

Neutral Colors

MEETS NATIONAL STANDARDS FOR:

ASTM F1487-17

CPSC GUIDELINES #325

Product Description

The Figg's Landing provides a plethora of engaging features and exciting activities for children to enjoy. They can navigate through a tunnel, test their balance and coordination on a bones bridge, and experience the exhilaration of sliding down any of the four exciting slides. Children can also embrace their entrepreneurial spirit at the storefront panel, where they can imagine themselves as shopkeepers serving imaginary customers. The playground also includes a single drum that offers a creative outlet for musical expression as well as a ship's wheel so that children can transport themselves to the high seas and envision commanding their very own imaginary vessel.

The structure is built with a low and high section so both younger and older children will be able to play on it. The lower section is accessible by a leaf climber that attaches to a platform with a straight slide and a tube bridge. The tube bridge leads out to another platform with a straight slide and number climber; from here, children can climb up stairs to the higher section of the structure.
