1	63058-202	4 Position Swing Beam
1	63076-303	9 ft Beam Legs (Hdwre & Instr)
1	50546-777	3 Swings, 1 Trapeze
1	SD920-800Q	Williamsburg Picnic Table
1	63093-102	Picnic Adapter
1	63079-102	Monkey Bars

The components of this gym can be combined with others to create different play sets. This is the best order of assembly to create this specific set.

Read this sheet and all instructions included with the different parts before assembly.

See the Instructions and Owner's Manual included in carton 63067-202 for important safety information.

- Start by assembling the Ridgefield tower. Instructions are in carton 63067-202. Other instructions and hardware are in the cartons noted above. Do not use the Williamsburg instructions packed in the wood roof carton.
- Ridgefield step 18. The 9ft Beam will be mounted in the position pictured above, parallel to the roof. Drill the holes. Insert the weld nuts.
- Ridgefield step 33. Wait to install the wall slats.
- Install the swing beam. Instructions are in carton 63076-303.
- Set the ladder and slide as shown above. Check spacing.
- Fasten access brackets to the **inside** of the ladder rails. Secure the access ladder using the method shown in step 36 of the Ridgefield instructions.
- Install Monkey Bars (63079-102) on the front of the tower. Mount one side directly to the post.
- Install the slide mount and slide using the method shown in steps 38 and 39 of the Ridgefield instructions
- Install the wall slats in the positions shown above, using the methods from the Ridgefield instructions. Gaps must be narrower than 3-1/2" or wider than 9" to prevent potential head entrapment.
- Review the instructions for the Picnic Table (SD920-800Q) and Picnic Adapter (63093-102). Install the picnic table using the adapter to create a gap for access to the side closest to the swings. The standard installation leaves the gap under the porch but it can be installed with the gap at the back of the tower.
- Double-check all fasteners are secure and all recessed hardware is covered by hole caps.
